Subject: HOO Highlight - Termination of North Anna Unusual Event on 8/28/11

On 8/25/11 North Anna declared an Unusual Event due to aftershock seismic activity following an earthquake on 8/23/11. At that time, North Anna indicated that it planned to remain in its Unusual Event status until a reasonable period of time had passed without aftershocks in order to avoid multiple re-entries into an emergency status.

On 8/28/11 at 1536 EDT, North Anna exited from its Unusual Event based on the cessation of any further seismic activity.
