Re: RAM License No. 42-32507-01:  
Removal of Radioactive Material from Site  
The DOW Chemical Company  
1603 Building  
Midland, MI 48667

Dear Sirs,

This is a letter of notice that we will be removing radioactive material from the DOW Chemical Company at the site address listed above in reference. We will no longer permanently store radioactive material at this site address. The source and projector will be relocated to another storage location. All associated documentation pertaining to this storage site will be relocated to the main office in Michigan. A close-out survey will be performed within the second to third week of January 2012. Once all associated documents, survey readings, and drawings are complete we will expedite this information to you for your review. We would also like to give notice that once these actions are complete that we will be removing this site from our license as a storage address.

Thank you for your cooperation in this matter. If there are any questions or comments please contact me.

Sincerely,

A handwritten signature in black ink, appearing to read 'Joe Alonzo'.
