

Note to File:

Subject: Action to be taken during next amendment for Delaware City Refining Company, LLC License

When this license was issued, License Condition 13 was included on the license when it was not needed. The next time a licensed action is opened for this license, this Note to File should be included in the action as a heads-up for the license reviewer. The reason why a license amendment is not being opened on this date is because the license condition is redundant since maximum possession limits were placed on the license.

Delaware City Refining Company, LLC, LN 07-31432-01, DN 030-38418
