Ms. Wollenweber, (apology I'm calling you Ms. Tobin, I should call you "Ms. Wollenweber" instead)

Good morning, Thank you for your message.

Yes, your understanding is correct.

Also, our Tokyo member confirmed with NFI that they have no additional comment on this issue.

Appreciate your special support.

Best Regards,  
Kazuko Toyoda

**Subject:** Amendment application for XSNM3647

Dear Ms. Toyoda,

Thank you for confirming that Mitsui does not plan to ship materials under this export license until they have an actual forecast of the restart of the reactors. I also appreciate your interaction with NFI on this case. Please confirm my understanding that both Mitsui and NFI will not supply fuel to shut-down reactors.

Thanks!

-Jenny
