SUBJECT: NRC INSPECTION REPORT NO. 03029882/2011002, TEI ANALYTICAL SERVICES, INC., NATURAL GAS COMPRESSOR STATION AND PIPELINE, SYCAMORE, WEST VIRGINIA AND NOTICE OF VIOLATION

Dear Mr. Weiss:

On November 15, 2011, through January 4, 2012, Scott Wilson of this office conducted a security inspection at a natural gas compressor station in Sycamore, West Virginia, of activities authorized by the above listed NRC license. The inspection was limited to a review of your access controls and monitoring of radioactive material in quantities of concern while in areas under exclusive federal jurisdiction. The inspection consisted of observations by the inspector, interviews with personnel, and a selective examination of representative records. The findings of the inspection were discussed with you via telephone at the conclusion of the inspection.

Based on the results of this inspection, the NRC identified security-related violation(s), which are documented in the enclosed Notice of Violation (Notice). The violation(s) were evaluated in accordance with the NRC Enforcement Policy and are categorized at Severity Level (SL) IV. The Enforcement Policy is included on the NRC's website at www.nrc.gov; select **About NRC; Regulation; Enforcement; then Enforcement Policy**. The violation(s) are cited in the enclosed Notice, because the violation(s) were identified by the NRC. Information regarding the basis for significance determination for the violation(s) is addressed in Enclosure 2.

The NRC has concluded that information regarding the reason for the violation(s), the corrective actions taken and planned, and the date when full compliance was achieved is already adequately addressed on the docket as summarized in Enclosure 2. Therefore, you are not required to respond to this letter unless the description therein does not accurately reflect your corrective actions or your position. In that case, or if you choose to provide additional information, you should follow the instructions specified in the enclosed Notice.
