Subject: FW: Request: Public Availability of SECYs and SRMS concerning SOARCA

Jim:

I received the M. Marshall email (below) asking for recommendations on SECYs and SRMs that could be released to the public (with and without being redacted) and a proposed due date.

I forwarded this request to Pat Santiago (Res TA), also asking for a resource estimate on the effort, Pat replied with a list, a resource estimate and a recommended due date.

My question is: What is the mechanism to forward the reply to the Chairman's office?

I believe an email directly to Michael would be the quickest and cleanest plan forward at this point. As you can see (below) Michael did not actually request action beyond the gathering of the information.

Let me know,

Kathleen

Subject: Request: Public Availability of SECYs and SRMS concerning SOARCA

Hello Kathleen,

The chairman would like to make all the SECYs and SRMs concerning SOARCA available to the public, even if portions of the documents would need to be redacted.

Please, provide the Chairman a recommendation of:

- (1) Which SECYs and SRMs concerning SOARCA that are not currently publicly available that can be released to the public and
- (2) What portions of the other SECYs and SRMs concerning SOARCA that are not currently available that would need to be redacted to enable their release to the public.

After this request has been considered, please, provide an estimated date by which this request will be completed. Thanks in advance for your assistance.

Michael L. Marshall, Jr.

Policy Advisor for Reactors
Office of the Chairman
U.S. Nuclear Regulatory Commission
