Got it. Thanks again for turning this around so quickly.

Hi Greg:

We propose the following changes:

1. We don't anticipate an ACRS meeting in April on SOARCA. So, please remove that part. A subcommittee meeting will probably happen, but it will be down the road a bit.
   (We are aware that level-3 PRA is having an ACRS subcommittee meeting in April but are unsure how that language got transferred to the SOARCA line item. SOARCA had an ACRS subcommittee meeting on June 21, 2010. These projects are expected to be presented as a joint SECY but most of the steps leading to the end product won't be in parallel. We do expect to brief the ACRS prior to the report going to the Commission, but this will happen later than April and most likely sometime in the summer.)

2. Revise the notes column for the Level 3 PRA entry to reflect the following:
   "Staff briefed ACRS subcommittee 11/17/10. ACRS plans to issue letter after full committee meeting in April."

I also attached the emails from Ken, Dan, Brett, and Les with their input to this (including no comments) So please give any of us a call if you have any questions.

Thanks.
Tarek
