Thanks for the help.

I'm going to leave off the latest SOARCA extension request for now. At our meeting last week, we agreed to hold off on submitting the extension request until after the TA brief. I wouldn't want them to find out for the first time through this list. We'll have to update this list again next month, and we can revise the due date then.

I hope that makes sense, but if not, let me know.

Greg,

There are 4 items assigned to RES. The first two are on track and don't need any changes.

The 3<sup>rd</sup> item is SOARCA- as you we've requested an extension to December 2011.

We had originally planned to combine the 4<sup>th</sup> item, Level 3 pra. with SOARCA so I would suggest striking out the comment that this item is to be combined with SOARCA.

Below I've included the current version and my proposed edits.

Let me know if this is what you needed.

Current version  
7/7/11  
(Extended from  
10/29/10.)

Provide results of the initial assessments/reactor consequence analysis studies w/recommendation whether continuing this project as originally described in SECY-05-0233 is necessary to achieve its objectives AND results of the peer review of the Peach Bottom and Surry methodology and approaches in the SOARCA. [SRM-CMSY06-0064 and SRM-S08-0029]

RES To be priority for July. 2007C  
For potential  
Commission meeting  
in 2011 on SOARCA  
and Level 3 PRA.  
[Note: ACRS will  
review and issue  
letter after full  
Committee meeting  
TBD.]

 Importance: High

Jeanne,

I attached SECY's list of items coming to the Commission. We have to update this list on a monthly basis, and it's that time. This list is only for items that the Commission is going to need to take action on, so it doesn't include things like memos or information papers.

When you have a chance, please let me know if you see any changes that need to be made. There usually aren't many things that need to be updated. The last time this list came out, Brian commented that the

SOARCA and Level 3 PRA papers should be combined, and we sent some edits associated with dates for ACRS meetings and things like that. SECY added a note to the Level 3 PRA paper to reflect that it was going to be combined with SOARCA (I think because they're separate in the Commission's tracking system and WITS, they didn't actually combine the line items on the list) and made the other changes.

If you can get back to me by COB on February 8, I would appreciate it. If you have any questions, please let me know.

Greg

Please review the attached list of items coming to the Commission for action/vote. SECY will be presenting this list to the Chairman to assist him in establishing his priorities for the next agenda planning session. Note that the list now goes through December 2011.

For each item:

- Is it an action/voting item?
- Is the due date correct?
- Are there any other papers that you are generating that will be coming for Commission action/voting that are not on the list? If you are not sure of exactly when you will be providing something, please give an estimated date. It is better to have it on the list and adjust the date if need be.

(Items in blue are for Commission meetings, and items in green are newer and/or changed.)

By close of business February 10th, please confirm that the items for your office are correct and provide any other items that should be on the list through December 2011.

Please feel free to provide updates to these items at any time, as soon as you know something has changed and/or you are planning to send a new action/voting paper to the Commission. [Note that SECY is not adding staff generated items to the Commission Tracking System. We are only keeping them on the attached list.]

We appreciate your assistance and attention in putting together an accurate and comprehensive list of action items coming to the Commission.

Thank you,  
Rochelle
