Okay. I corrected the status update. You are correct, we are still waiting to hear from GBJ and GEA on the February dates. Although from the 3 offices we have heard from so far, there doesn't seem to be one date that all three can make.

Ken,

I just want to make sure we're on the same page on the SOARCA TA briefing request we sent up.

We had originally proposed conducting the briefing on March 2 or 3. Subsequent to sending up the invitation, we had an alignment meeting and decided it would be better to move the meeting up, in part because of some recent developments with the project and to allow for more time between the briefing and the RIC. We sent up the revised proposed dates on Friday.

The status update e-mail Rich sent out a minute ago indicates that the proposed times for the SOARCA briefing are February 16, 17, or 18 OR March 2 or 3. We're actually just hoping for February 16, 17, or 18 and not the dates in March (I think we're still waiting to hear back from the Chairman and Commissioner Apostolakis's office on suitability of the February dates)

I hope that makes sense. When I saw the status update, I figured it would be a good idea to make sure we all have the same understanding. Thanks for the help.

Greg
