To whom it may concern:

I understand that you are receiving comments on the proposed nuclear power plant in the Gaffney area. I would like to express my strong opposition to building a nuclear plant.

I would rather see this money go into incentive programs for people to install solar, wind, or geothermal systems and into education about conservation.

Nuclear power is too expensive and dangerous, both in start up costs and in long term environmental hazards and waste materials.

Thank you for your consideration.
