SUBJECT: SEQUOYAH – OPERATOR LICENSING WRITTEN EXAMINATION APPROVAL
05000327/2012301 AND 05000328/2012301

Dear Ms. Ware:

The purpose of this letter is to confirm the final arrangements for the upcoming operator licensing written examination at Sequoyah Nuclear Plant.

The U.S. Nuclear Regulatory Commission (NRC) has completed its review of the operator license applications submitted in connection with this examination and separately provided a list of approved applicants to Mr. Steve Smith, Operations Training Supervisor. The NRC staff administered operating tests to these individuals, as applicable, the weeks of January 17, 2012, and January 23, 2012. Note that any examination waivers and application denials have been addressed in separate correspondence.

The NRC has approved the subject written examination and hereby authorizes you to administer the written examination in accordance with Revision 9, Supplement 1, of NUREG-1021, "Operator Licensing Examination Standards for Power Reactors," on February 1, 2012.

This examination has undergone extensive review by my staff and representatives responsible for operator training at your facility. Based on this review I have concluded that the examination meets the guidelines of NUREG-1021 for content, operational, and discrimination validity. By administering this examination, you also agree that it meets NUREG-1021 guidelines, and is appropriate for measuring the qualifications of licensed operators at your facility. If you determine that this examination is not appropriate for licensing operators at your facility, do not administer the examination and contact me at (404) 997-4608.

Please contact your Chief Examiner, Mr. Gerry Laska, at (404) 997-4626 if you have any questions or identify any errors or changes in license level (RO or SRO) specified for each applicant on the list of approved applicants.

Sincerely,
/RA/
