Subject: NRC Request for List of Planned Topical Report Submittals for  
FY2012 through FY2014

Attachment: BWROG Planned Topical Report Submittals for FY2012 through FY 2014

As requested in your letter to the BWROG Chairman dated December 23, 2011, the BWROG is providing the attached list of planned submittals for FY2012 through FY 2014. The table also annotates those that will be submitted for NRC staff review and those that will be submitted for information only. The estimated number of licensed facilities planning to use the approved TR is included along with a designation of those that will contain proprietary information. Based on your verbal request we have also highlighted those, which in our opinion, may be applicable to New Reactors.

Please note we have also included those topical reports previously submitted that are still under NRC review for your planning purposes. This summary does not prohibit the BWROG from submitting other reports as necessary.

If you have questions or desire further discussion, feel free to contact me or Craig Nichols, BWROG Program Manager, at 910-819-1745.

Regards,

Frederick P. "Ted" Schiffley, II
