Classification: UNCLASSIFIED
Caveats: NONE

Hi Betsy,

I'm working, as promised, on the questions you sent me, albeit with many interruptions so it's moving slower than I'd like. I definitely won't have the answers to you by tomorrow, but will work as fast as I can to get them to you.

Carrie

Subject: would like to discuss your NRC application

Ms. Gutierrez,

I am the license reviewer assigned to your application for the radium gauges in military museums. I would like to discuss the application with you, before I write a request for additional information (RAI). I am not quite sure I understand the scope of what you are requesting to do, and need to understand how this license will operate at sites across the US.

I am in work at the moment, although I may have to leave later today for a while. I will be in all next week except Tuesday; my work hours are 6:45 am to 4:30 pm. Let me know when you have time to talk with me.

Thanks,
Betsy
