Gurjendra,

I seem to recall from last ISTD in Clearwater that you mentioned that we could send to you our comments on the Draft Reg. Guide 1482.

I hope I am not being presumptuous but attached herewith are my two comments regarding snubbers in Section 7. Of the Reg. Guide Draft. Please forward my comments to the right individual.

Thank you very much.

Best regards,
Karl

NUREG 1482 R2 DRAFT

SECTION 7. SNUBBER INSERVICE EXAMINATION AND TESTING PROGRAMS

COMMENTS:

Section 7.1 should add a clarification detailing the 10 CFR 50.55a(g) requirements for examination and testing of snubbers when licensees are using 2006 and later Editions of Section XI of the ASME B&PV Code.

Section 7.2 should also add a detailed reference to examination and testing requirements when licensees are using 2006 and later Editions of Section XI of the ASME B&PV Code. It should be discussed by reference that all snubber examination and testing subsequent to Section XI 2006 Edition and later, the licensees shall follow the requirements of 10 CFR 50.55a(b)(3)(v)(B).
