Dear Mr. Lawrence:

The U.S. Nuclear Regulatory Commission (NRC) extends its thanks to you and the helpful staff of Restoration Church International for allowing the NRC to host its public meetings for the William States Lee III Nuclear Station Units 1 and 2 draft environmental impact statement at your church on Thursday, January 19, 2012. The Restoration Church International staff was extremely gracious in providing excellent accommodations and audio/visual technical support for the public meetings. Restoration Church International's willingness to open their doors to the NRC and members of the public allowed for a comfortable and conducive setting for members of the public to freely express their respective viewpoints, comments, and concerns about the proposed Lee Nuclear Station and the NRC's technical and environmental review process for combined license applications. Thank you again for helping the NRC meet our mission of encouraging public participation, and increasing openness and transparency in our licensing process.

Sincerely,
