U.S. Nuclear Regulatory Commission
Washington, DC 20555-0001.

**Re: August to December 2011 Semi-Annual Effluent Report
Docket 40-9068, License Number SUA-1598**

Dear Director,

Regulations in 10 CFR 40.65 require the submittal of a semi-annual effluent report that documents the quantity of each principle radionuclide released to the non-restricted area. However, since construction and operation of the Lost Creek Project hasn't commenced, there was no release of source or byproduct material to report during the August to December 2011 reporting period.

If you have any questions regarding this submittal or require additional information please feel free to contact me at (307) 265-2373.

Regards,

Lost Creek ISR, LLC
By its Manager, Ur-Energy USA Inc.
