I, Stephen R. Cowne, being duly sworn, state that I am the Head of Operations for Louisiana Energy Services, L.L.C. ("LES"); that I am authorized on the part of said company to sign and file with the Nuclear Regulatory Commission ("NRC") this document; and that all statements made and matters set forth herein are true and correct to the best of my knowledge, information, and belief.

I am making this affidavit in conformance with the provisions of 10 CFR 2.390 for the regulations of the Nuclear Regulatory Commission (NRC), and in conjunction with LES' request for withholding, which is accompanied by this affidavit.

The information for which exemption from public disclosure is requested contains SENSITIVE UNCLASSIFIED NON-SAFEGUARDS INFORMATION (SUNSI) related to descriptions of facilities where licensed material is located and accident analyses for the UUSA Facility. LES requests the following information be exempt from disclosure pursuant to the provisions in NMSS Guidance, Screening Criteria for Security-Related Sensitive Unclassified Non-Safeguards Information, RIS 2005-31, Attachment 2, Appendix 1 (Fuel Cycle Facility Reviews):

Pursuant to the provisions of 10 CFR 2.390(b)(4), the following is furnished for consideration by the NRC in determining whether the security-related information sought to be protected should be withheld from public disclosure.

1. The sensitive unclassified security-related information (SUNSI) was identified by LES using the guidance in NRC RIS-2005-31, Attachment 2, Appendix 1 (Fuel Cycle Facility Reviews).
2. The information sought to be withheld is being provided to the NRC in confidence, and under the provisions of 10 CFR 2.390, is to be received in confidence by the NRC.
3. The information sought to be withheld is not available in public sources, to the best of LES' knowledge and belief.

For all the reasons discussed above, LES requests that the identified SUNSI be withheld from public disclosure.
