Subject:

Decommissioning Survey for Middletown, CT facility

**(NOTE: This will be used as the
Documents Title in ADAMS)**

1/30/2012 (13:18) I spoke with Mr. Soucy about the licensee's request to have the facilities in Middletown, CT be released for unrestricted use. I informed him that the surveys conducted in 2000 were performed using criteria that was superceded and that the release criteria was much lower. At the time, the consultant used had performed other surveys for licensees and was required to rework the data or perform more surveys to meet the more stringent criteria. The letter would be considered a notification of the cessation of licensed activities and the licensee would be allowed two years to come in with a reworked version of the survey.
