**To:** Wheeler, Jennifer K.  
**Cc:** Ramsey, Kevin  
**Subject:** Approval of Request to Extend the Response Period For RAIs: TAC L33175 and TAC L32997

Jennifer,

During a phone conversation on January 25, 2012, with Kevin Ramsey, NFS requested an extension of the due date to respond to Requests for Additional Information (RAIs) regarding the FSS Report Surface Soil Characterization, Survey Units 1 and 2 (TAC L33175). NFS needed the additional time to coordinate the Survey Units 1 and 2 responses with those for open questions on the FSS for Survey Units 2, 8, 9, 19, and 20 (TAC L32997). NFS requested an extension to March 2, 2012, for both licensing activities.

This e-mail extends the due date of responses to the RAIs for both licensing activities, TAC L33175 and TAC L32997, to COB of Friday, March 2, 2012.

In accordance with Title 10 of the Code of Federal Regulations, 2.390 of the U.S. Nuclear Regulatory Commission's (NRC's) "Rules of Practice," this e-mail will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records System component of the NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.
