Ok, thanks.

If you all could keep NMSS/SFST plugged in on anything related to the North Anna earthquake. There seems to be many hands in this, and we just want to make sure we're aware of activities, briefings, etc. associated with the ISFSI so we can contribute or lead, as needed.

Vonna / Alan,

I just spoke to Jennifer Uhle who had a piece of this meeting for the RES. She was under the impression that NRR was going to cancel the meeting based upon some decisions that were made late last week and also b/c Marty is out at the retreat.

So...Tina Malone (Marty's secretary) is reaching out to the NRR front office to determine the status of the meeting.

As soon as I hear something, I will be in touch.

Have not heard. At OEDO retreat so may not be up to date.

Jack? Craig? Andy?

Have you heard about an EDO briefing today at 2pm? We are available to support.

Subject: EDO briefing on North Anna restart

Spoke to Bob Martin in NRR who is the North Anna PM. He tried to call Eric and Doug first.

He said there was a meeting with EDO at 2pm this afternoon to discuss North Anna restart issues with EDO - as well as pre-brief with Eric Leeds at 10:00 am.

Also stated, that North Anna may be here on Thursday to discuss restart issue.

Bob was letting us know, because he was not sure if ISFSI issues would come up. Not an issue from a restart standpoint, but of course is getting publicity.

Have you heard anything at a higher level?

It may be wise to have someone sit in gallery of EDO briefing. (Eric, I left message with Alan Frazier to see if he had more info).

Mike
