No. 12-012

February 6, 2012

NRC ADVISORY COMMITTEE ON REACTOR SAFEGUARDS TO DISCUSS JAPAN TASK FORCE RECOMMENDATIONS AT FEB. 9-11 MEETING

The Advisory Committee on Reactor Safeguards (ACRS) will hear presentations and hold discussions regarding the implementation of the Japan task force recommendations at a meeting on Feb. 9-11 at NRC headquarters in Rockville, Md. The Japan task force was chartered to undertake a review of NRC's processes and regulations to determine if the Commission should make additional improvements in regulations, and to give recommendations for policy direction.

Further meeting location details and information are listed on the complete ACRS meeting [agenda](#) available on the NRC's website.

The ACRS advises the Commission, independently from the NRC staff, on safety issues related to the licensing and operation of nuclear power plants, as well as issues in the areas of health physics and radiation protection. For more information on the ACRS, view an NRC [video](#) presentation on YouTube or visit the NRC [website](#).
