Where does he see this analysis of North Anna earthquake scratch plates taking us?

Also, who does his hair (only I can ask that, if you did it would be an insult)

I guess this answers the question. I will have to entertain Bill when he comes down for a visit, as he said he would come and visit. Anything you want asked while I have his attention?

Historically, MDs are FIOAble, but not publically available. I would think a special action would be needed to release them. Let me ask Bill (Ruland) this question. I will get back to you.
