I appreciate your view Charlie, however my view is that the peer review has done its work and their comments have been incorporated and we've moved on to incorporate some staff comments and clean up the document some. Everyone who has reviewed the new rev (2a) thinks it is a much better product. Jennifer is reviewing it and you and Jason also need to review it this afternoon so Jennifer can have all input upon which to make a final decision. The changes are not extensive and will not take a long time to review, but they do need your review today. Thanks.

I think it is most important to send the ACRS the version we sent to the peer review and not yet another interim version.

Jason/Charlie,  
Please review the new rev. 2 (I think Scott is calling it rev 2a) this afternoon. There is a redline version (compared to rev 1) available that takes no more than an hour or so to review the changes. If you don't have it I can send it to you. It doesn't have the exec summary changes but as you note that is a couple paragraphs added to the end of the summary document and also an easy review.

It is important that we send ACRS our best available effort.

Thanks!

Hi Jennifer,

On Tuesday, Scott Elkins sent Hossein Nourbakhsh the SOARCA NUREG (Rev 1) for ACRS review in preparation for the June 21 ACRS meeting on SOARCA.

This morning, Scott called me. He is off today, but he wanted to let me know that Kathy and he developed a version of the SOARCA NUREG (Rev 2) for the ACRS to review instead of Rev 1. Rev 2 differs from Rev 1 in at least 3 ways:

- the Executive Summary has been removed
- part of the Executive Summary has been appended to the end of the NUREG as a new chapter (Chapter 6)
- Sandia has made other changes in response to NRC staff comments

Scott asked me to check with you regarding whether you want us to proceed with sending Rev 2 to Hossein Nourbakhsh today.

Please note that Jimi is not in today, and neither Charlie nor I have reviewed Rev 2.

Thanks,  
Jason
