**SUBJECT: REQUEST FOR EXTENSION TO REPLY TO NOTICES OF
NONCONFORMANCE
NRC INSPECTION REPORT NUMBER 99901401/2011-202**

REFERENCE: DOCKET NUMBER 99901401

Shaw Modular Solutions (SMS) is in receipt of the subject NRC Inspection Report and is in the process of addressing the nine Notices of Nonconformance included therein. To date, SMS actions have included determinations as to the extent of condition and reasons why the noncompliances occurred; identification and implementation of corrective actions; and, determination as to any impact the noncompliances may have had on previously-shipped AP1000 modules. Validation and verification that the actions to address the issues identified in the Notices of Nonconformance are adequate and are being and/or have been effectively implemented are in progress.

In order to complete the above activities and ensure a comprehensive evaluation of the Notices of Nonconformance, SMS respectfully requests that the NRC grant an extension to the reply date. This will enable SMS to confirm that the reply adequately addresses the identified issues and accurately describes the actions that are being taken and have been taken.

Therefore, SMS requests that the reply due date be extended to March 9, 2012. SMS appreciates the NRC's consideration in this matter and awaits your response. If you have any questions, please contact me.

Sincerely,

J. L. Ernst
Executive Vice President
Shaw Modular Solutions
