Subject: STP summary of January '12 chemical effects meeting
Attachments: STP Summary of January meeting.doc

Please find attached for your review the STP meeting summary from the January '12 chemical effects testing. STP may discuss some items from this summary during the scheduled public conference call this Thursday on 2/9 to ensure alignment and understanding of chemical effects issues discussed at the January meeting. Please disseminate this summary to NRC staff as appropriate for review prior to the meeting. If needed, the document could be attached to the 2/9 public conference call summary.

Respectfully,
Jamie Paul
