Subject: FW: TAC No. for North Anna Earthquake Initiatives

We need to open a TAC for NA seismic. So far we have no document to represent a licensing action, but we will likely get on in coming weeks.

Should the TAC be fee-recoverable or non-fee recoverable?

Bob, since we have so many folks assisting with the North Anna initiative, could you pls open up a tac number for the staff to charge to. Yong will be charging to the inspection no. for the AIT, however, others don't have a tac to charge activities to. Thanks so much for your help.

OEDO has the action on this at this time. This is FYI to you since someone could ask for input on it in near future.

FYI - green ticket assigned to EDO to coordinate with NRR on Compliance with Seismic Safety Specification at North Anna.

Thanks,
Patti

Subject: ACTION: G20110644

Attached is the action green ticket assigned to OEDO (Roger Rihm) to coordinate with NRR and Region II, if required. The ADAMS version will be sent after DPC processes.
