Mr. John Nicholson  
U.S. Nuclear Regulatory Commission, Region I  
475 Allendale Road  
King of Prussia, PA 19406-1415

Subject: **Termination of License No. SNM-1067**

07001100

Reference: Letter, J. Nicholson (NRC) to J. F. Conant (ABB) dated January 17, 2012

Dear Mr. Nicholson:

ABB has requested termination of NRC license SNM-1067 in December 2011. The Reference letter from NRC requests clarification regarding disposal of waste during decommissioning. During decommissioning of the Windsor Site, there were times that waste materials were held under SNM-1067. Once the materials were ready for disposal, they were transferred back to license 06-00217-06 for disposal. None of the waste generated during decommissioning activities was disposed under SNM-1067. This is the basis for selecting B.2.a. (transfer of radioactive materials) on the NRC Form 314 submitted in December 2011 requesting termination of license SNM-1067.

If you have any additional questions concerning this request for termination, please contact me at (860) 418-0370 or by email at [john.conant@us.abb.com](mailto:john.conant@us.abb.com).

Sincerely,

John F. Conant  
Director, Nuclear Engineering and Compliance
