Fire Protection – Klein	1	
DLR – Holian?		
Aging Reactor Sys – Pham	1	
Aging Struc, Elec – Auluck	Yes	Under preparation for issuance.
Aging Plant Systems - Pelton	1	

Code 1 – I would think that we would want these branches to weigh in on whether they need to be a part of the review. Perhaps send the forthcoming NA report to them and ask them for their SE input on it – would be a way to get their response.

Code 2 – Its not apparent from what's now known that we need input from these. This could change as developments occur.
