Subject: revision to The U.S. Nuclear Regulatory Commission (NRC) "Nuclear Waste Confidence Decision."

I am opposed to any new nuclear reactors and wish to see the old reactors shut down. Nukes pose an unsolvable threat to the lives and security of America from natural disasters and terrorist attack. There is no place to store the spent fuel, and storing it onsite as is now done makes the site even more dangerous. Wind and solar can produce as much power as regularly and reliably without the huge hazard of a Chernobyl, TMI or Japanese catastrophe wiping out entire states.
