Subject: Question about material

(NOTE: This will be used as the
Documents Title in ADAMS)

The licensee wishes to terminate their license and sent in a Form 314 stating that they have only possessed sealed sources. I contacted the licensee to inquire if they ever possessed any of the analytical samples they were authorized to use according to their license. Mr. Helfrich explained that the licensee never conducted the work with the analytical samples as originally intended and only possessed small button sources which were exempt from licensing. I asked that he send correspondence indicating such and he agreed.
