Subject: Re: Invitation to Section 106 meeting between Tribal Historic Preservation Officers and Federal/State agencies and other consulting parties

Good morning,

I left you a message earlier but thought it best to write. I received your email and would like to let you know that on a conference call with tribes yesterday, we discussed our meeting calendars. I volunteered to contact you, and was not able to get a message out to you yesterday as we are in a major storm here in the northern plains. Many of our offices were closed yesterday and today.

After receiving your email invitation I need to let you know we have a consultation meeting scheduled. We had requested these dates at the last meeting and not hearing from you were pressed on another meeting of high importance to our tribes with regard to another project in the Black Hills and a very sensitive issue. I volunteered to call your office as tribes had suggested the date of April 17-19. Unfortunately, we already have the month of March booked. You must realize our offices are small and thus we dont have the staff to attend all the meetings we are requested for consultation. It was discussed that a better date is the April date suggested above.

Your attention in this matter is greatly appreciated. If you have any questions please contact me.

Subject: Invitation to Section 106 meeting between Tribal Historic Preservation Officers and Federal/State agencies and other consulting parties

Dear Tribal Historic Preservation Officers,

Attached is an invitation from Kevin Hsueh, Environmental Review Branch Chief, requesting the attendance of THPOs at a Section 106 meeting on March 14 and 15, 2012 in Rapid City, South

Dakota. NRC will also mail the invitation to each Tribal President or Chair with a cc to the THPOs. The Section 106 meeting is intended to be a Tribal staff to NRC/BLM staff meeting, rather than a meeting of Tribal and NRC leadership.

If you have any questions please contact myself or Nathan Goodman.

Thank you,

Haimanot Yilma and Nathan Goodman
