Manas/Nikki,

Can you tell me how many open RAIs there are for Chapter 3? If there is only one RAI associated with SSE definition for the site, I agree with Chuck and Tom that we should close P2 with open item and resolve the RAI in P4. Please discuss this with me ASAP.

Thanks,  
Jim

Hi Jim,

This is the task we discussed late last week. Per discussion with Tom Kevern, you guys should close this out and finalize the P2 SER leaving remaining RAI's as open items to be resolved in P4. Manas and Nikki are assigned, could you please request that they close the Task out? I talked with Manas and he is still waiting for the RAI response to finalize.
