Mr. Jeffrey A. Halfinger, Vice President  
Technology Development  
Babcock & Wilcox Nuclear Energy, Inc.  
109 Ramsey Place  
Lynchburg, VA 24505

SUBJECT: WITHHOLDING PROPRIETARY INFORMATION FROM PUBLIC DISCLOSURE  
FOR THE BABCOCK & WILCOX MPOWER DESIGN MEETING SLIDES  
ENTITLED, "BABCOCK & WILCOX MPOWER CORE AND FUEL DESIGN  
UPDATE MEETING"

Dear Mr. Halfinger:

By letter dated January 27, 2012, Babcock & Wilcox Nuclear Energy (B&W NE), Inc. submitted an affidavit (Agencywide Documents Access and Management System (ADAMS) Accession No. ML12032A193) in which you requested that the information contained in the following document be withheld from public disclosure pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR), Part 2, Section 2.390:

B&W mPower Core and Fuel Design Update ADAMS Accession Nos. ML12032A192,  
ML12032A195, ML12032A196, (Updated ML12055A309, ML12055A311,  
ML12055A313)

A nonproprietary copy of this document has been placed in the Nuclear Regulatory Commission's (NRC's) Public Document Room and added to the NRC Library in ADAMS, Accession No. ML12032A194 (Updated ML12055A314).

The affidavit stated that the submitted information should be considered exempt from mandatory public disclosure for the following reasons:

- 4(a) The information requested to be withheld reveals the distinguishing aspects of a process (or component, structure, tool, method, etc.) whose use by any of the B&W NE's competitors, without a license from the submitter, would constitute a competitive economic disadvantage to B&W NE.
- 4(b) Use by a competitor of the information requested to be withheld would reduce a competitor's expenditure of resources, or improve its competitive position, in the design, manufacture, shipment, installation, assurance of quality, or licensing of a similar product.
- 4(c) The information requested to be withheld reveals aspects of privately funded development plans or programs of commercial value to B&W NE.

J. Halfinger

-2-

4(d) The information requested to be withheld consists of patentable ideas.

We have reviewed your application and the material in accordance with the requirements of 10 CFR 2.390 and, on the basis of the statements in the affidavit, have determined that the submitted information sought to be withheld contains proprietary commercial information and should be withheld from public disclosure.

Therefore, the version(s) of the submitted information marked as proprietary will be withheld from public disclosure pursuant to 10 CFR 2.390(b)(5) and Section 103(b) of the Atomic Energy Act of 1954, as amended.

Withholding from public inspection shall not affect the right, if any, of persons properly and directly concerned to inspect the documents. If the need arises, we may send copies of this information to our consultants working in this area. We will, of course, ensure that the consultants have signed the appropriate agreements for handling proprietary information.

If the basis for withholding this information from public inspection should change in the future such that the information could then be made available for public inspection, you should promptly notify the NRC. You also should understand that the NRC may have cause to review this determination in the future, for example, if the scope of a Freedom of Information Act request includes your information. In all review situations, if the NRC makes a determination adverse to the above, you will be notified in advance of any public disclosure.

If you have any questions regarding this matter, I may be reached at 301-415-6091.

Sincerely,

*/RA/*

Joelle L. Starefos, Senior Project Manager
