SUBJECT: MITSUBISHI HEAVY INDUSTRIES, LTD. – REQUEST FOR WITHHOLDING
INFORMATION FROM PUBLIC DISCLOSURE FOR MITSUBISHI HEAVY
INDUSTRIES' REVISED TECHNICAL REPORT MUAP-08007-P (R2)
“EVALUATION RESULTS OF US-APWR FUEL SYSTEM STRUCTURAL
RESPONSE TO SEISMIC AND LOCA LOADS”

Dear Mr. Ogata:

By letter to the U.S. Nuclear Regulatory Commission (NRC) dated December 20, 2010, you submitted an affidavit requesting that the information contained in the following document be withheld from public disclosure pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR), Part 2, Section 2.390:

Transmittal of the Revised Technical Report MUAP-08007-P/NP (R2) regarding
Fuel System Design

A nonproprietary copy of this document has been placed in the NRC's Public Document Room and added to the Agencywide Documents Access and Management System (ADAMS) Public Electronic Reading Room (ML103640170).

The affidavit stated that the submitted information should be considered exempt from mandatory public disclosure for the following reasons:

- The basis for holding the referenced information confidential is that it describes the unique design developed by MHI for the fuel of the US-APWR.
- Public disclosure of the referenced information would assist competitors of MHI in their design of new nuclear power plants without the costs or risks associated with the design of new fuel systems and components. Disclosure of the information identified as proprietary would therefore have negative impacts on the competitive position of MHI in the U.S. nuclear plant market.

We have reviewed your application and the material in accordance with the requirements of 10 CFR 2.390 and, on the basis of the statements in the affidavit, have determined that the submitted information sought to be withheld contains proprietary commercial information and should be withheld from public disclosure. Therefore, the versions of the submitted information marked as proprietary will be withheld from public disclosure pursuant to 10 CFR 2.390(b)(5) and Section 103(b) of the Atomic Energy Act of 1954, as amended.

Y. Ogata

- 2 -

Withholding from public inspection shall not affect the right, if any, of persons properly and directly concerned to inspect the documents. If the need arises, we may send copies of this information to our consultants working in this area. We will, of course, ensure that the consultants have signed the appropriate agreements for handling proprietary information.

If the basis for withholding this information from public inspection should change in the future such that the information could then be made available for public inspection, you should promptly notify the NRC. You also should understand that the NRC may have cause to review this determination in the future, for example, if the scope of a Freedom of Information Act request includes your information. In all review situations, if the NRC makes a determination adverse to the above, you will be notified in advance of any public disclosure.

If you have any questions regarding this matter, I may be reached at (301) 415-3249, or via email at Ruth.Reyes@nrc.gov

Sincerely,

/RA/

Ruth C. Reyes, Project Manager
Licensing Branch 2
Division of New Reactor Licensing
Office of New Reactors
