

March 2, 2012

Mr. Dennis Franks
Vice President, Operations
Oakland Physicians Medical Center, LLC
d/b/a Doctors' Hospital of Michigan
461 West Huron
Pontiac, MI 48341-1651

SUBJECT: NRC INSPECTION REPORT NO. 03002060/12-001(DNMS) – OAKLAND
PHYSICIANS MEDICAL CENTER, LLC

Dear Mr. Franks:

On January 24, 2012, U.S. Nuclear Regulatory Commission (NRC) inspectors conducted a routine inspection at the Oakland Physicians Medical Center, with continued in-office review through February 28, 2012. The purpose of the inspection was to determine whether activities authorized by the license were conducted safely and in accordance with NRC requirements. The in-office review was to review your license amendment request, naming a new Radiation Safety Officer and new authorized physician users. At the conclusion of the inspection, the findings were discussed with members of your staff.

The inspection was an examination of activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations, and with the conditions of your license. Within these areas, the inspection consisted of selective examinations of procedures and representative records, and interviews with personnel.

No violations of NRC requirements were identified during this inspection. Our Materials Licensing Branch will continue its review of your amendment request, and notify you under separate cover.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

D. Franks
