Clinic

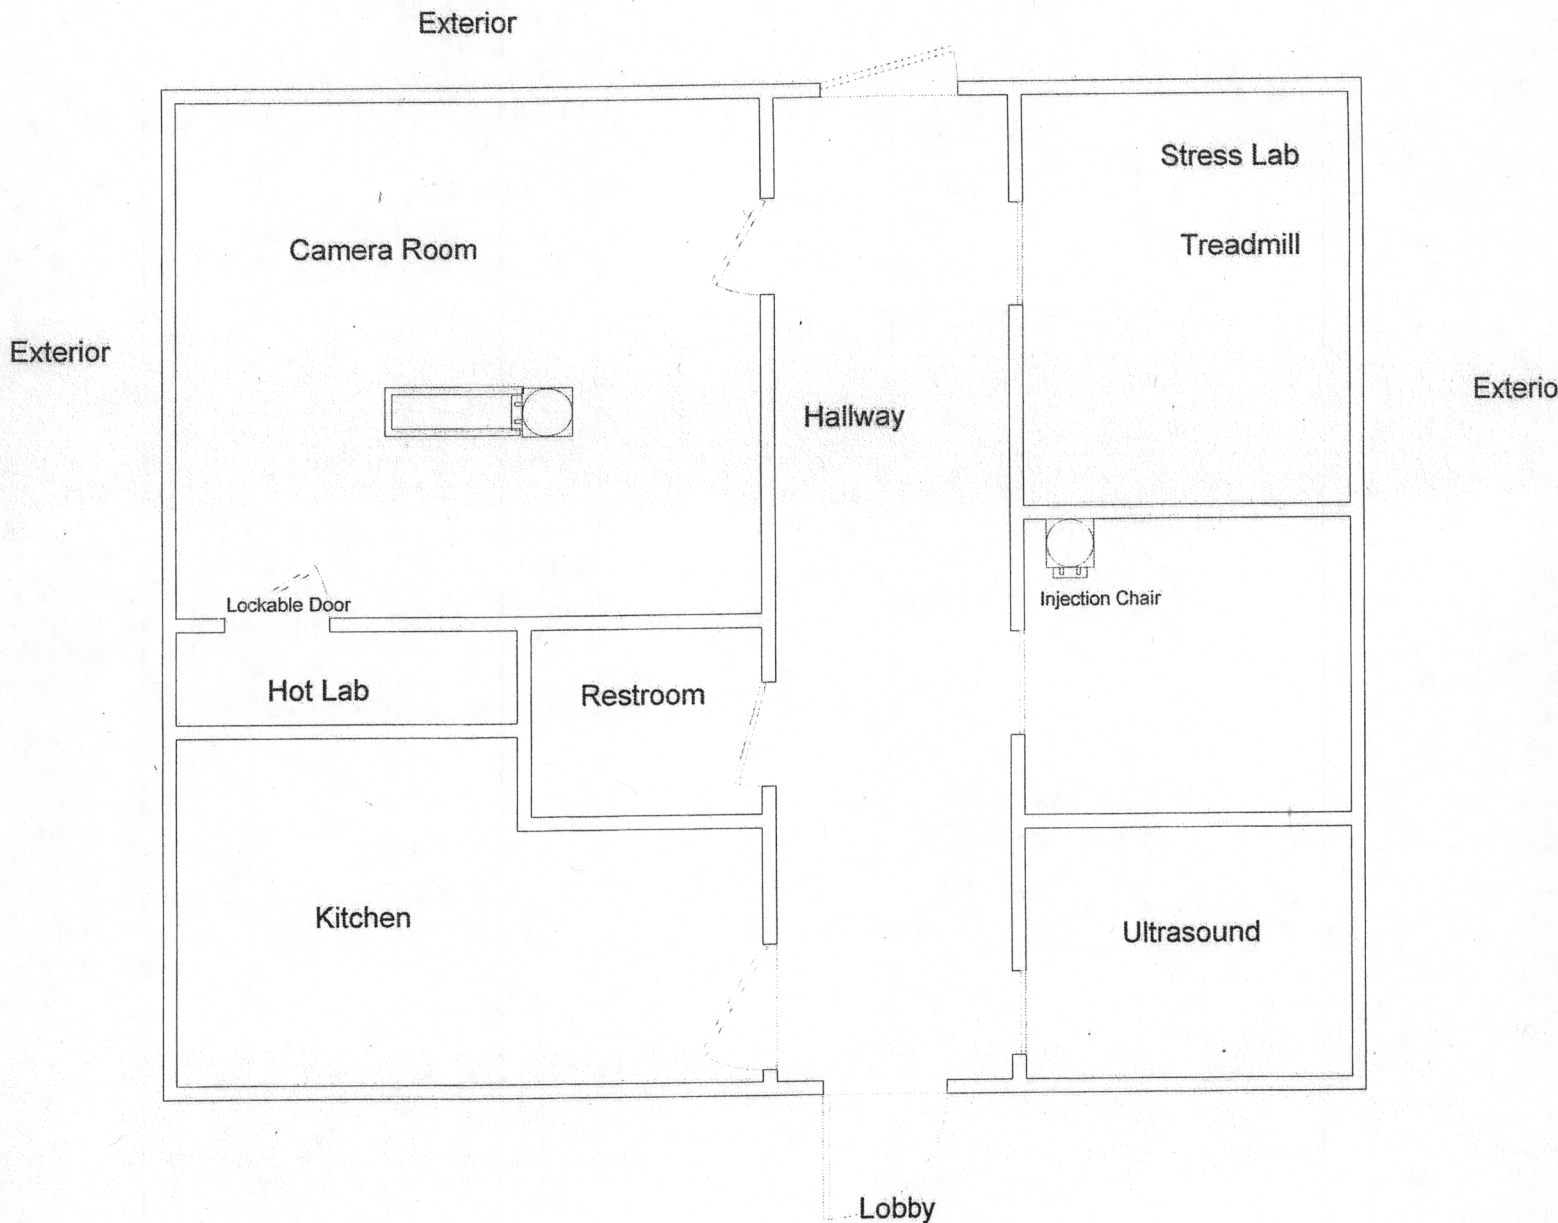

Updated

2012

The Hot Lab is designed with lockable doors. Specific areas for storage, preparation and receipt of radioactive materials are designated.

Equipment located in the restricted area is:
Survey Meter, Well Detector, Dose calibrator

Shielding is adequate to assure that no individual will receive radiation exposures in excess of the limits identified in 10 CFR Part 20

This is to acknowledge the receipt of your letter application dated

2/22/12, and to inform you that the initial processing which includes an administrative review has been performed.

☒ Amendment (47-30903-01)
There were no administrative omissions. Your application was assigned to a technical reviewer. Please note that the technical review may identify additional omissions or require additional information.

☐ Please provide to this office within 30 days of your receipt of this card
