Individual(s) were called in an effort to reconcile the lists of NARM registrants provided by Vermont regulatory authorities and the NRC database of licensees authorized to possess byproduct material.

On February 2, 2012, I called LeadSafeVermont.org. at 802-828-3250. I was transferred to the appropriate program and I spoke to Diane, Program Assistant, who informed me that the company owns an xrf device for lead detection and that Mr. Zatzke uses the device. I left a message for him to return my call.

Mr. Zatzke stated that he has a Niton XLP 306AW Cd-109 22957 General License.

NOTE: Blake Welling, DNMS MS&I Branch Chief was informed of the results of this conversation.
