SUB-526, Docket # 40-3392.

Subject: Withdrawal of Honeywell International Inc. Request to Use ICRP 68 for  
Determination of DAC, ALI, and Soluble Uranium, Dated July 26, 2011.

On July 26, 2011, Honeywell Metropolis Works submitted a request to use ICRP Publication 68 based methodologies for determination of DAC, ALI, and Soluble Uranium intake limit. In addition, on October 5, 2011, Honeywell submitted to NRC another communication, Honeywell Metropolis Works Supplemental Documentation for Request to Use ICRP 68 for Determination of DAC, ALI, and Soluble Uranium Limit.

Based on our latest analysis, the submittal dated October 5, 2011, provides all the necessary information to support Honeywell's amendment application to use ICRP Publication 68 based methodologies. Consequently, Honeywell's letter dated July 26, 2011, appears to be redundant in nature, and Honeywell requests to withdraw this letter to avoid miscommunication and to facilitate Honeywell's amendment application review and approval.

If you have any questions on Honeywell Metropolis Works' license amendment request, please contact Mr. Michael Greeno, Regulatory Affairs Manager, at (618) 309-5005.

Sincerely,

*Dean Palmer on behalf of LAS*

Larry A. Smith
