Dear Michael;

Please see the letter attached below from Sabia about the coal analyzer we wish to add to our license. If you should need any further information, please let me know. If not, we look forward to receiving the amendment some time after Christmas. I thank you very much for your help and quick attention to this request for amendment to our license.

I hope you enjoy your holidays and that the weather stays moderate around the Windy City.

Againm thank you.

Regards,

Kristin Bronson

Dear April;

I have just had a request from USNRC for our amendment to be processed for some documentation from you. What our reviewer has requested is a form letter, signed and dated, with the Model number of this device on it and the Control number 56527 also on this paper. I will immediately send it to him if you can send to me via email attachment.

I explained to Bob Ellerhorst here that our wonderful old US SNAIL MAIL messed up and lost the a amendment request letter for several weeks and just sent it back to me a couple weeks ago. But I have a sympathetic reviewer who is already on this and we should have things going pretty well soon enough.

If you have a question, please phone me at 517-974-4977. I am most grateful for your help on behalf of Sabia and soon hope this device is installed and working happily away.

Best regards,

Kristin Bronson
