**Subject:** St. Lucie discharge headwall project questions

Jodie,

As I have been putting together the biological assessment for FWS, I have come up with some questions. If you would be able to answer these, that would be really helpful to me. Thanks!

1. The December 6, 2011 FDEP construction permit letter that you attached to your March 6 email seems to be missing a couple of pages. The second page of the letter cuts off, and then the attachment starts with page 2 on the following page. Can you provide the missing pages?
2. Can you send me a copy of the sea turtle protection plan that was submitted to the St. Lucie County Development Review Board and that is mentioned in FPL's proposed conditions for work?
3. What other permits or approvals are needed that relate to sea turtles? The ones I know of are an incidental take permit under the Endangered Species Act, St. Lucie County Development Review Board approval of a sea turtle protection plan, and a construction permit through FDEP. Are there any others in addition to these?
4. When does FPL anticipate that the discharge headwall project will be completed?
5. What will working hours be during the project? Will there be any work after dark, and if so, any associated lighting?

Briana
