

NOTE TO FILE

LICENSEE: Department of the Defense – Fort Belvoir (FBCH)
CONTROL NO.: 576204
PREPARED BY: T. Weidner
DATE: 3/22/2012
SUBJECT: Voidance of the new license request

In the letter dated October 8, 2011, the DOD requested a number of changes to the Walter Reed Army Medical Center license (08-01738-02), including changes in the organizational name, mailing address, and a transfer of control to the Fort Belvoir Community Hospital. The mailing address requested was at the Fort Belvoir Community Hospital in Fort Belvoir, Virginia.

Because the mailing address was in Virginia, Region I initially determined that a new license would be required and assigned a control number (576204) for a new license for FBCH and a termination for the WRAMC (576205). Following a review of the WRAMC license and additional discussions with the DOD personnel, Region I determined that:

- (1) a new license for FBCH was not necessary at this time based on the application for a Navy Master Materials License permit, for FBCH, which was submitted in 8/2011, and
- (2) decommissioning activities at WRAMC are on-going.

Therefore, Region I determined that mailing address changes to the WRAMC should be made so that the FBCH will continue to receive mail at WRAMC until such time as the NMML permit is issued. Following the issuance of the Navy permit, an amendment request will be made to remove the FBCH from the WRAMC license.
