Subject: TIA Status Report  
Attachments: TIA Status 12 15 11.doc

Nelson/Tim/John,

Attached is the biweekly TIA status report to support your Directors call with the Regions on Friday. Note that I used blue font in areas on the report to better illustrate updates/changes from the previous report. Listed below are items that may be of most interest from the last two weeks:

1. The draft revision to COM-106 (NRR's office instruction on the TIA process) was sent out for comment via email by Nelson on Monday, November 28<sup>th</sup>. We are requesting any comments by January 6<sup>th</sup>, 2012.
2. Potential TIA regarding Seismic Assumptions at Point Beach is under review in NRR/DSS/SBPB.
3. NRR should be receiving the Quad Cities TIA on Tornado Missile Protection by the end of December.
4. NRR will be removing NRO from concurrence on the Watts Bar-Seismic Qualification of Heinemann Molded Case Circuit Breakers, and will proceed in issuing the draft to the region.

Thanks,

Holly
