Ms. Roldan,

This email is in regards to License No. 11-29230-01. I'm not sure if you remember the particulars of this license, but it involves the appointment of a person from another company appointed as the RSO for a company and the storage of portable gauges in the other companies approved storage facility. That being said, the licensed company had an NRC inspection today and it was discovered that the storage facility was not listed on the license. In researching the documentation a letter was found that was supposed to be sent to your office amending the license cover letter to read Christopher Kaetzel as the Idaho Sand and Gravel (ISG) Radiation Safety Officer and to add the storage facility at 8653 W. Hackamore Drive to the license. Since the ISG representative could not locate evidence that the correspondence had been signed and sent, I am enclosing a new signed request for the amendment. If you need any more information please contact me at the information below. Thank you for your assistance in this matter.

Chris Kaetzel

March 20, 2012

Lizette Roldán-Otero, Ph.D.
U.S. NRC Region IV
Texas Health Resources Tower
612 E. Lamar Blvd., Suite 400
Arlington, TX 76011-4125

I am requesting in this letter that the U.S Nuclear Regulatory Commission Materials License No.11-29230-01, expiration date June 30, 2016, Docket No. 030-37202 be amended in the following areas:

- A. (12) The Radiation Safety Officer for this license to be Christopher Kaetzel. The Amended License cover letter has the RSO listed as Michael Kaetzel.
- B. Due to the lack of an on-site supervision at the Idaho Sand and Gravel office storage location (924 N Sugar Street Nampa, Idaho). We would request the storage location be change to 8653 W. Hackamore Drive (the storage location for NRC License Number 11-27320-01) until an RSO based from that facility is installed.

We appreciate you attention to this matter and if you have any questions or require further information please call me at 208-466-5001

Sincerely,

Robert Von Lintig

LICENSING AND/OR TECHNICAL REVIEWER

This is to acknowledge the receipt of your:

☒ LETTER and/or ☐ APPLICATION DATED: 03/20/2012

The initial processing, which included an administrative review, has been performed.

☒ AMENDMENT ☐ TERMINATION ☐ NEW LICENSE ☐ RENEWAL

- ☒ There were no administrative omissions identified during our initial review.
- ☐ This is to acknowledge receipt of your application for renewal of the material(s) license identified above. Your application is deemed timely filed, and accordingly, the license will not expire until final action has been taken by this office.
- ☐ Your application for a new NRC license did not include your taxpayer identification number. Please fill out NRC Form 531, located at the following link:

<http://www.nrc.gov/reading-rm/doc-collections/forms/nrc531.pdf>

Send the completed NRC Form 531, by facsimile, to the following number: (301) 415-5387

A copy of your action has been emailed to our License Fee and Accounts Receivable Branch, in our Headquarters office in Rockville, MD. You will be contacted separately if there is a fee issue involved.

Your application has been assigned the above listed **MAIL CONTROL NUMBER**. When calling to inquire about this action, please refer to this control number. Your application has been forwarded to a technical reviewer. Please note that the technical review, which is normally completed within 180 days for a renewal application (90 days for all other requests), may identify additional omissions or require additional information. If you have any questions concerning the processing of your application, our contact information is listed below:
