

Order EA-12-049

Mitigation Strategies

ISG Development

March 28, 2012

NRC Expectations of Industry Guidance

- Integrated plan contents, with template
- Reasonable protection standards
- Equipment pedigree
- Regional depots and their regulatory treatment
- Instrumentation
- Portable generators as alternate sources
- Procedures and training

Topics for discussion

- Hydrogen control strategies
- Impeded site access
- Staffing analysis
- Operating plants versus new reactor differences
 - Passive designs for example
- Date for submission of industry guidance
 - Timeline for ISG will not accommodate iterative submittals
