Bob,

This is to acknowledge that the staff has accepted for review the above-referenced ISA Summary Annual Update, dated February 7, 2012, which has been assigned TAC Number L33216. All reviews should be completed by September 28, 2012.

The staff did not identify any deficiencies or omissions during the acceptance review that could delay further review. Although the ISA Summary Annual Update appears to be complete, the technical review nevertheless may identify omissions in the submitted information, or identify technical issues that require additional information. In addition, policy or technical issues may require coordination with other NRC offices. You will be notified promptly if the staff identifies any additional information needs.

A copy of this Notification will be made publicly available electronically for inspection in the NRC Public Document Room or from the NRC's document system, ADAMS, which is accessible from the NRC web site at <http://www.nrc.gov/reading-rm/adams.html>.
