**SUBJECT: CRYSTAL RIVER UNIT 3 - EMERGENCY PREPAREDNESS INSPECTION
AND REQUEST FOR INFORMATION**

Dear Mr. Franke:

From November 12 - 16, 2012, the NRC will perform baseline Emergency Preparedness inspections at the Crystal River Unit 3, (NRC Inspection Procedures: 71114.01 - Exercise Evaluation and the Emergency Preparedness Sections of 71151, Performance Indicator Verification).

Experience has shown that this inspection is resource-intensive both for the NRC inspectors and your staff. In order to minimize the impact to your on-site resources and to ensure a productive inspection, we have enclosed a request for documents needed for this inspection. It is important that all of these documents are up to date and complete in order to minimize the number of additional documents requested during the preparation and/or the onsite portions of the inspection.

We have discussed the schedule for these inspection activities with your staff and understand that our regulatory contact for this inspection will be Frieda Frando of your organization. If there are any questions about this inspection or the material requested, please contact the lead inspector, Mark E. Speck at (404) 997-4759 (mark.speck@nrc.gov) or the Chief of Plant Support Branch 1, Brian Bonser at (404) 997-4653.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document
