Ms Kathleen Yhip
Senior Project Manager
Nuclear Energy Institute
1776 I Street NW, Suite 400
Washington, D.C. 20006-3708

Dear Ms. Yhip:

Thank you for speaking at the U.S. Nuclear Regulatory Commission's (NRC's) 24th Annual Regulatory Information Conference (RIC). Your presentation on "Decommissioning Planning" during the W-11, Discussion on Policies and Practices for Implementing the Decommissioning Planning and License Termination Rules session provided important information to include initiatives that are underway in the nuclear arena.

Audio and video files for the Opening session, Commission plenary sessions, Regional Administrators' session and Special Plenary Session "Operating and New Reactors Panel Discussion: NRC and Industry Perspectives" are now available at <http://video.nrc.gov/>. All final presentation slides, audio recordings and questions that were not addressed during the technical sessions are being compiled and will be posted within the next few weeks on the NRC's RIC website at: <http://www.nrc.gov/public-involve/conference-symposia/ric/index.html>.

Once again, the number of participants at this year's RIC reached over 3,000 with international representation from 35 countries. As indicated by the initial feedback received, this year's RIC was successful in achieving the NRC's goals of dispersing information, fueling thought and providing a venue for discussion on topics pertinent to nuclear regulation and the nuclear industry. It is your commitment and support that helped to make the RIC a success.

Again, thank you for your participation at NRC's 2012 Regulatory Information Conference.

Warm regards,

/RA/

J C Shepherd
Session Chair
