**Subject:** DRAFT: RAIs for Fort Calhoun Station Re: NFPA-805 LAR  
**Attachments:** ME7244 RAI Email.docx

Bill,

By letter dated September 28, 2011 as supplemented by letters dated December 19 and 22, 2011 and March 20, 2012, Omaha Public Power District, (the licensee), submitted a license amendment request (LAR) to transition the fire protection licensing basis at the Fort Calhoun Station, Unit 1, from Title 10 of the Code of Federal Regulations (CFR), Section 50.48(b), to 10CFR50.48(c), National Fire Protection Association Standard NFPA 805 (NFPA 805).

The Nuclear Regulatory Commission (NRC) staff has reviewed the information provided by the licensee and also conducted an audit from March 5 to March 9, 2012. The NRC staff has determined that additional information specified in the attached Request for Additional Information (RAI) is needed for the staff to complete its evaluation. These RAIs were discussed with the licensee during the audit. In addition, please note that review efforts on this LAR are being continued and additional RAIs may be forthcoming.

Please contact me if a clarifying teleconference is needed for the attached RAIs.
