Subject:

Clarification of activities under Item 9.J.

(NOTE: This will be used as the
Documents Title in ADAMS)

4/10/2012 (10:00) I left a message for Mr. Lake to call me regarding the company's license. (13:30) Mr. Lake returned my call. I requested information on where the licensee analyzed samples that it takes from clients' sealed sources. Mr. Lake stated that the samples are taken to its home office in Pennsylvania, possessed under its Pennsylvania license and analyzed with their Ludlum scaler. I informed Mr. Lake that, as written, Item 6.J. – 9.J. implies that there is possession of licensed material. His description of the licensee's activities indicates that Item 8.J. should be changed to reflect no possession of licensed material under the NRC license as Items 8.A. – 8.I. I stated that the licensee would not need to send in a letter requesting an amendment to its license. Since the error originated from the NRC's end, a corrected copy would be issued from the office.
