SUBJECT: ST. FRANCIS HOSPITAL, INC., LICENSE AMENDMENT, CONTROL NO.
576811

Dear Ms. Hester:

This refers to your license amendment request. Enclosed with this letter is the amended license naming Dr. Dutka as your Radiation Safety Officer. During a telephone conversation with your temporary Radiation Safety Officer, Mr. Mark Perna, on April 2, 2012, Mr. Perna confirmed that he provided Dr. Dutka radiation safety training specific to 10 CFR 35.300 uses. We also note that while Mr. Perna was not listed as the permanent Radiation Safety Officer on your license, he is listed on other NRC licenses as the Radiation Safety Officer, and therefore, was authorized to sign the preceptor statement.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits**, see our **toolkit index page**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m. EST, Monday through Friday (except Federal holidays).
